DESIGNED TO FULFILL THE NEEDS OF TODAY'S
EVER-CHANGING EDUCATION INDUSTRY

MILE STONES

SYSNET EDUCATION IS THE FIRST COMPANY IN PAKISTAN TO BECOME A CISCO CERTIFIED TRAINING PARTNER AS WELL AS A MICROSOFT CERTIFIED TECHNICAL EDUCATION CENTRE.

FIRST CITRIX GOLD PARTNER IN PAKISTAN

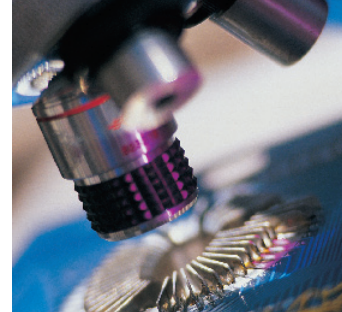

SYSNET EDUCATION EXPENDED ITS HORIZON AND NOW IT IS OFFERING TRAININGS IN USA, UAE, EGYPT, IRAN, IRAQ, BANGLADESH AND SAUDI ARABIA.

WHY SYSNET EDUCATION?

SYSNET EDUCATION HAS ALWAYS USED THE PHILOSOPHY OF DELIVERING MOST TO ITS STUDENTS IN A TIME EFFECTIVE MANNER.

STATE OF THE ART TRAINING LABS AND QUALIFIED TRAINERS

Sysnet Education has skilled and well qualified professionals with hands-on experience. A Sysnet Education lab contains all of the latest training facilities and equipment to keep pace with emerging trends and technologies. Our training labs are purpose built and comprise a large variety of equipment. To ensure complete and realistic lab environments all courses are furnished with large amounts of equipment.

REAL-TIME CASE STUDY BASED TRAINING

To cater the today's technology challenges Sysnet Education uses real world scenarios to increase the problem solving ability of the training participants. Students spend more than 50% of the time on structured lab exercises that augments confidence, clarity and decision making.

INDIVIDUAL ATTENTION TO STUDENTS

Our class size is limited to 6 participants as compared to larger class sizes of many other institutes. Sysnet Education's has helped students to spend quality time with our qualified instructors.

TRAINING METHODOLOGY

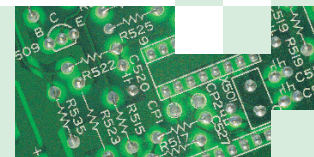

Sysnet Education maintains a state of the art lab to offer trainings. Trainings are delivered

to organizations as per their preference and convenience.

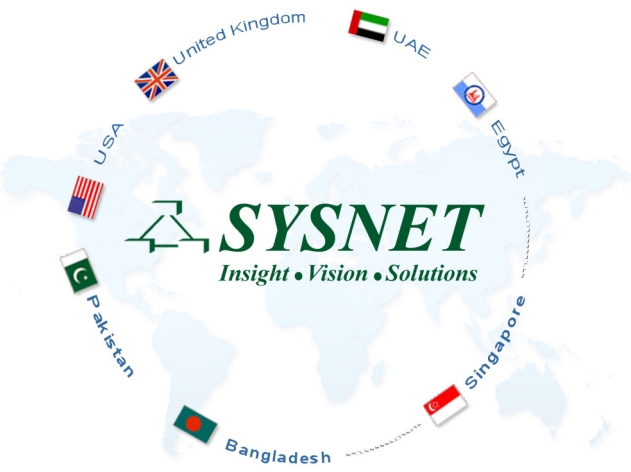

- Training at customer sites: Our trainers move to customer sites for delivering trainings
- Virtual classes: Our instructor delivers training online via using latest tools to make participants virtually available at our state of the art lab.

CUSTOMIZED TRAININGS

Sysnet Education offers training as per the

needs of organizations to augment the skills of its work force. Apart from offering product trainings related to our strategic partners we also offer trainings acutely designed to cover specific technology areas. Our training consultants design a course of study after mutual consent of its customer. These help organizations to invest their employees' time for the gain of exact knowledge.
